Every teacher shall prepare a teaching plan at the commencement of the course. The teaching plan shall contain the details of lectures, seminars, discussions, treatises and other materials relied upon by him or her for handling the classes which shall be participatory. Discussion methods of teaching will be adopted.

7. Hours of Instruction

Six day week shall be followed with Sunday being holiday. Second and Fourth Saturdays will be holidays. The class hours shall be from 9 am to 4 pm with lunch break between 1pm and 2 pm. Tutorial/ remedial classes may be arranged from 4 pm- 5 pm.

8. Uniform

The students shall wear the uniform except on Wednesdays and Saturdays.

Prescribed Uniform:

For Boys: Black pants and white shirt, neat, presentable and formal.

For Girls: Black pants and white shirt, neat, presentable and formal
or White Salwar with Black bottom and black over coat.

Dress code is to be strictly observed including on exam days.

Non-compliance can entail fine upto 100 /- per day and will warrant disciplinary action. The fine amount collected will go towards Cochin University Legal Aid Clinic (CULAC) fund.

9. Code of Conduct

Every student shall foster and maintain a vibrant academic, intellectual, cultural and social atmosphere which is consistent with the objectives of the University. The students shall strictly adhere to the Cochin University Students (Conduct and Disciplinary) Code 2005.

10. Examination

- There shall be a University examination at the end of each semester. Candidates having attendance not less than 70% in each paper and 75 % in aggregate shall alone be admitted to the end semester examination. Marks for attendance above 80% will be awarded as follows.

>81-84%	- 1 Marks
>85-88%	- 2 marks
>89-92%	- 3 marks
>93-96 %	- 4 marks
>97-100 %	- 5 marks

- Criteria for condonation of shortage of attendance will be decided by the University through its orders from time to time.
- For each written paper carrying 100 marks, 50% shall be set apart for internal assessment and 50% marks for the end semester examinations. Internal assessment shall be made on the basis of overall performance during the semester based on parameters such as regularity of attendance, preparation and presentation of assignments, test paper scoring and class room participation etc. The scheme for internal evaluation will be as follows:

Sl no:	Internal Component	Marks
1	Attendance	5
2	Test paper	20
3	Assignment Submission	10
4	Assignment Presentation	10
5	Class participation	5
Total marks		50

The internal evaluation scheme may be amended by the Department Council as and when required.

- The performance in practical training papers shall be assessed internally.
- A candidate who is registered and or is entitled to be presented for the examination in a semester shall be entitled to pursue the studies for the next semester of the course.
- There shall be a Viva-Voce at the end of tenth semester examination which may cover all the courses taught for the whole programme. The viva board shall consist of the Chairman and two examiners, at least one of whom shall be an external examiner.
- Internal improvement, re- admission and validity of registration to complete the programme will be as per University rules.

11. Internship

Every student registered for the 5-year integrated LLB course shall complete a minimum of 20 weeks of internship. The Department Council (DC) shall announce the period of internships for the academic year. The student shall comply with The Internship Rules, 2024 adopted in compliance with the Bar Council of India (BCI) Rules of Legal Education, 2008.

12. Pass minimum and classification

- A candidate who secures not less than forty percentage (40%) in the internal as well as external examinations and also secure an aggregate of fifty percent (50%) of the total marks for individual papers in the semester examination shall be declared to have passed the examination in that paper.
- The minimum credit to qualify the degree is 300 credits.
- A candidate who passes in all the papers and secures 50% or more of the aggregate marks for all the ten semesters but less than 60% shall be declared to have passed whole examination in second class.
- Successful candidates with 60% marks and above in the aggregate for all the ten semesters shall be declared to have passed the whole examination in first class.
- Successful candidates with seventy-five percentage marks or above in the aggregate for all the ten semesters shall be declared to have passed the examination with distinction provided he/she passes all the examinations within the period of whole programme. Ranking shall be done on the basis of marks obtained by the candidate in the whole examination passed in the first chance.

13. Grading

Grades shall be awarded to the students in each course based on the total marks obtained in continuous assessment and at the end semester examination.

The grading pattern shall be as follows

Marks obtained (Percentage)	Grade	Grade points
90 to 100	S	10
80 - 90	A	9
70 - 80	B	8
60 - 70	C	7
50 - 60	D	6
< 50	F	0

A student is considered to have earned credits in respect of a course if he/she secures a grade other than F for that course.

Grade Point Average

The academic performance of a student in a semester is indicated by the Grade Point Average (GPA).

$$\text{GPA} = \frac{G_1C_1 + G_2C_2 + G_3C_3 + \dots + G_nC_n}{C_1 + C_2 + C_3 + \dots + C_n}$$

Where 'G' refers to the grade point and 'C' refers to the credit value of the corresponding course undergone by the student.

The Grade Point Average (GPA) for each semester will be calculated only for those students who have passed all the registered courses of that semester. Similarly, Cumulative Grade Point Average (CGPA) up to any semester will be calculated only for those students who have passed all the courses up to that semester.

Grade Card

The Grade Card issued at the end of the semester to each student by the Controller of Examinations, will contain the following:

- a) The code, title, number of credits of each course registered in the semester,
- b) The letter grade obtained,
- c) The total number of credits earned by the student upto the end of that semester and
- d) GPA & CGPA.

Classification

On successful completion of the programme, CGPA will be calculated as follows:

$$\text{CGPA} = \frac{C_1 \text{GP}_1 + C_2 \text{GP}_2 + C_3 \text{GP}_3 + \dots + C_n \text{GP}_n}{C_1 + C_2 + C_3 + \dots + C_n}$$

Where 'GP' refers to the grade point average (GPA) and 'C' refers to the total number of credits obtained by a student in a particular semester.

The classification based on CGPA is as follows:

CGPA 8 and above	: First Class with distinction
CGPA 6.5 and above, but less than 8	: First Class
CGPA 6 and above, but less than 6.5	: Second Class.

Conversion of GPA/CGPA to Percentage marks

The following formula shall be used to convert the SGPA/CGPA obtained by a student to percentage marks.

$$\text{Percentage marks} = (\text{GPA or CGPA} - 0.5) \times 10$$

In the final marklist along with the Grade point average percentage of marks obtained by the candidate may be noted in bracket.

14. Revision of Regulations and Curriculum

The University may from time to time revise, amend or change the Regulations, scheme of Examinations and the syllabus. This Regulation will be effective from 2024 B.Com LLB admission onwards.

Programme Objectives, Outcomes and Mapping

Vision of the Cochin University of Science and Technology

The University aims to become an Institution of Global Standards by continuously improving its quality of academic activities, taking up research and innovation in the frontier areas and by ensuring conducive state-of-the-art infrastructural facilities.

Mission of the Cochin University of Science and Technology

CUSAT will continuously strive to generate a human resource of global competence by imparting the most modern knowledge and training to its student community and to take up Research and Development activities in the frontier areas to contribute positively to the progress of the society and the Nation. The University shall have the following objectives as its mission:

- To encourage and promote research and innovation in applied science, technology, industry, commerce, management and social science for the advancement of knowledge and the betterment of society.
- To provide facilities and offer opportunities for graduate and post-graduate education in applied science, technology, industry, commerce, management and social science by instruction, training, research, development, innovation and extension and by such other means as the University may deem fit.
- To devise and implement programmes of education in applied science, technology, industry, commerce, management and social science that is relevant to the changing needs of society, in terms of breadth of diversity and depth of specialization.
- To serve as a centre for fostering co-operation and exchange of ideas between the academic and research community on the one hand and industry on the other.
- To organize exchange programmes with other institutions of repute in India and abroad to keep abreast of the latest innovation and developments in relevant areas of teaching and research.

Programme Specific Outcome

PSO 1: To assimilate the study of law in terms of financial administration so as to groom professionals who can effectively lead as well as advice the corporate as well as the legal world.

PSO 2: To provide hands on experience in critical legal reasoning and skills so as to be experts in the field of law and accounting.

PSO 3: To identify, analyse and resolve legal and Accounting issues as well as play decisive and different roles as a legal practitioner, judge, researcher, advisor, arbiter, entrepreneur and accounting professional.

PSO 4: To cultivate the ability to be responsible leaders of business organisations by incorporating the fine principles of law and justice.

2	Business Organisation and Management
3	Business Statistics
4	Managerial Economics
5	General Principles of Contract (Law of Contract–I)
6	Law of Torts and Motor Vehicle Accidents

1. General English I

Semester 1	Course 1	(24-273-0101)
-------------------	-----------------	----------------------

Course Objectives

The objective of the course is to give the students a strong foundation of the English language which in turn is the basis of legislations, judgments and other legal instruments. The course is to equip them with the correct usage of English language and thus the possible interpretations of the same. This is essential for the students to learn law, in applying law, in arguing law, in drafting, and in judgment writing.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Use the grammar correctly	Understand
CO2	Develop good vocabulary, writing skills, intellectual creativity and flexibility.	Apply
CO3	Nurture critical thinking and cultural literacy	Evaluate

CO –PSO Mapping Table

IVth Semester B.Com LLB (Hons.)

1.	Financial Management
2.	Human Resource Management
3.	Marketing Management
4.	Administrative Law
5.	Family Law-I
6.	Law of Crimes-II

1. Financial Management

Semester 4	Course 1	(24-273-0401)
-------------------	-----------------	----------------------

Course Objectives

The objectives of this course are to build a thorough understanding of the central ideas and theories of modern finance and to relate theory to practice so that students learn the practical applications of Financial Management concepts.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand objectives of Financial management	Understand
CO2	Manage financial affairs of a company, forecast and ensure competitiveness of a company	Apply
CO3	Analyze the financial environment in the local and international markets	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	2	3
CO2	3	2	2	3
CO3	3	3	3	3

2-Medium Correlation

3-High Correlation

Course Contents

Module I: Financial Management - An overview

Financial Management - An overview: Concept of Business Finance, Meaning of Financial Management, Financial Decisions, Goals of Financial Management, Objectives of Financial Management, Risk-return tradeoff, Organization of the Finance Function.

Module II: Sources of Finance

Sources of Finance: Sources of Long-term Finance – Equity capital, Preference capital, Debentures, Term Loans, Internal Financing, Cost of Capital – Computation of cost of debt, cost of preference capital, Cost of equity capital, Cost of retained earnings, Weighted Average cost of capital. Capital structure – Meaning, Patterns of capital structure, Computation of Earnings per share, Factors affecting capital structure, Optimal capital structure.

Module III : Capital Budgeting

Capital budgeting: Meaning, Capital budgeting process, Project classification, Investment Criteria–payback period method, Net Present Value Method, internal rate of return method, Accounting Rate of Return method.

Module IV: Working Capital Management

Working capital management: Concept of working capital, Need for working capital, Types of working capital, Sources of working capital, Management of Cash Motives for holding cash, Objectives of cash management – Management of inventories–Kinds of inventories, Risks and costs associated with inventories, Management of accounts receivables – Purpose of receivables, Costs of maintaining receivables, Factors of affecting the size of receivables, Optimum size of receivables.

Module V: Dividend Decisions

Dividend Decisions - Dividend Policy - Conservative Vs Liberal policy -Pay-out ratio, Retention ratio - Dividend theories - Irrelevance theory-Modigliani-Miller Hypothesis; Relevance theories- Walter's Model, Gordon's Model-Determinants of dividend policy- Bonus shares, Stock split

2. Human Resource Management

Semester 4	Course 2	(24-273-0402)
------------	----------	---------------

Course Objectives

The course aims to familiarize students with the basic principles and techniques of human resource management. It also aims to familiarize HR policies of leading organizations. Another objective of this course is to understand aspirations of individuals, and changing business contexts. The design of this course is to enable the students to integrate the understanding of various HR concepts in order to take correct business decisions

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the concept of human resource management and its relevance in organizations	Understand
CO2	Interpret the systems and strategies in managing people professionally	Apply
CO3	Analyze the strategic issues and strategies required to select and develop manpower resources	Analyse

COs-PSO Mapping Table

2. Information Technology for Business and Law

Semester 5	Course 2	(24-273-0502)
-------------------	-----------------	----------------------

Course Objectives

The objective of the course is help the learner to twig and couple the knowledge with underlying dimensions of IT in business models. The course also aims to teach how a lawyer can take a stand in IT issues without deteriorating ‘justice’ and ‘utilization’ in information technology related cases and for that a thorough understanding about information technology is required. This course eases the students to deal with IT issues also with solid arguments with ground level understanding of IT and business models.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Understand different IT analytical perspectives and management decision tools used in businesses	Understand
CO2	Appreciate the concept of IT management strategy formulation, implementation, and evaluation.	Evaluate
CO3	Examine latest technological advancements and its impact on law and society.	Analyse

3-High Correlation

Course Contents

Module I: Information Technology Management

Understanding Technology, IT and its Relationship with Wealth of Nations and Firms Specific Knowledge; Technology Life Cycles, Technology Acquisition and Absorption;

Technology Exports / Joint venture abroad, Technological Intelligence and Forecasting, Global Trends in Technology Management, Big data analysis.

Module II: Information Systems for Management Decision Support

Concepts of Data, Information and knowledge, Concepts of Database Management Systems, Processing of data using computers, Storage and Retrieval of massive data on computers, MIS, Phases in software Systems Life Cycle. Application of Information systems, Use of Information systems in Business and their advantages, Application areas, problems Packages for Accounting and Finance, Decision Support Systems, Knowledge Based System

Module III: Data organization and Data Base Management System:-

Data organization: Character, field, record, file and database. Types of Data Processing Systems: Traditional file organization Vs. Database File organization. Data Base Management System: Concept, Types of database, hierarchical, network and relational, Basic ideas of Data Warehouse and Data mining, bit coin, block chain technology and crypto currency.

Module IV: Data Communication and Computer Network

Data Communication: Concept of Data communications, Transmission Modes: Simplex, Half Duplex, Full Duplex, Serial, Parallel, Synchronous, Asynchronous, Communication Media: Wireless and satellite communication, Wireless Broadband, WAP, Network components – Bridge, Switch, Router, Gateway, Introduction to Cloud Computing, Definition, Characteristics, Components, Cloud provider. Data Mining

Module V: Security Issues

Security threats - Virus, Trojan, Hacking, Spam- Cyber Security - Firewall, Antivirus software, Digital Signature. Concept of data Encryption & Decryption, Symmetric and asymmetric encryption, Digital envelope, Security Threats in E-Business environment, Technology Solutions – Symmetric key and Public key encryptions, Digital signature, Digital Envelope, Digital Certificates, SSL, SET, S-HTTP, VPN etc.

6. Law of Evidence

Semester 5	Course 6	(24-273-0506)
-------------------	-----------------	----------------------

Course Objectives

The course aims to help students understand the application of rules of relevancy, admissibility and appreciation of evidence in the trial process and civil proceedings. The course intends to provide insights about interpretations given by the courts on tendering of evidence,

reliability of evidence and burden of proof in civil and criminal cases. The difference in the perspectives of admissibility of evidence under special legislations will also be discussed.

Course Outcomes(COs)		Bloom's Taxonomy Level
After completion of the course the student will be able to :		
CO1	Understand the relevance and admissibility of evidence	Understand
CO2	Appreciate the fact finding process in a litigation	Analyse
CO3	Develop critical thinking skills necessary in the conduct of litigations and in adducing of evidence	Analyse
CO4	Apply and interpret the laws of evidence and become successful lawyers, prosecutors and judges	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	3	2	1
CO2	2	3	2	1
CO3	2	2	3	1
CO4	3	3	3	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Basic Principles of Law of Evidence

History and development of law of evidence- salient features- definition- legal and logical relevancy- Relevancy and Admissibility- Best evidence rule- Fact, fact in issue and relevant fact- Kinds of evidence- Evidence and proof- Concepts- Constitutional protections and adducing of evidence- Special legislations and Evidence Act- Family courts, Forest and Excise cases.

Module II : Relevant Facts as Evidence

Relevancy of facts- *Res gestae* –Common intention- identity and identification- Facts otherwise irrelevant- proof of right or custom- Circumstantial evidence- principles –Motive, preparation, conduct, occasion, cause, opportunity, state of mind, body, bodily feeling- similar facts. Facts delineating accidental occurrences and intentional acts. Exclusion of hearsay evidence and exceptions- Admissions –Principles and applicability- Confessions & Coercion - kinds of confessions, valid confession, principles, exceptions- Confession to Police– Recovery pursuant to authoring concealment - Applicability and evidentiary value- Co accused and approver- Declarations by persons who cannot be called into court as witnesses – Dying declaration – Relevance of judgements as evidence - Expert opinion- Opinion as to rights, custom, usages, tenets, relationships etc. Character

evidence- civil and criminal cases- principles, applicability, exceptions and evidentiary value, witnesses- evidence of character of victims of sexual offences pertaining to previous sexual experience regarding issues of consent.

Module III: Vehicles of Evidence

Facts which not be proved-Judicial notice- Extra Judicial Operation - Oral evidence- Rule against Hearsay Evidence-Documentary evidence- Primary and secondary evidence- kinds – rules regarding admissibility- Proof of execution of documents- Attestation- Proof of handwriting to prove execution – Exclusion of oral by documentary evidence- Kinds of documents- Ambiguity in documents- Presumption of documents-cyber laws- Electronic and digital evidence- Admissibility, Reliability and Burden of Proof -Electronic Discovery— appreciation of scientific evidence .

Module IV : Discharging the Onus

Burden of proof- concept- Application at different levels- Standard of proof- General and special exceptions- Reversal of burden of proof in special legislations - Kinds of Presumptions – Presumption of law, fact and conclusive proof -Presumptions and burden of proof- - Presumption as to legitimacy of child and presumption as to matrimonial offences- dowry death – abetment to commit suicide by a married woman - Presumptions as to life and death- Presumptions as to absence of consent in rape – Presumption as to certain Offences - Estoppel- Scope, principle, kinds, applicability- Waiver and presumption.

Module V : Dynamics in Trial Process

Trial- Relevance of evidence taken before trial- competency and compellability of witnesses- Privileged communications- Categories, scope and exceptions- Examination of witnesses and various categories of examinations- Rules pertaining to the conduct of various examinations-Corroboation and contradiction- Principles and mechanics- Hostile witnesses- Witness protection programme- Leading questions- Refreshing memory- Compulsion to answer questions- Improper admission or rejection of evidence- Judge's power to intervene in trial.

5	Property Law
6	Drafting, Pleading and Conveyancing

1. Accounting for Specialised Institutions

Semester 7	Course 1	(24-273-0701)
-------------------	-----------------	----------------------

Course Objectives

The objective of this course is to familiarize the students with the accounting practices prevailing in various specialised business enterprises and to acquaint them with the preparation of final accounts of these enterprises.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Explain commonly used financial statements in various specialized institutions.	Understand
CO2	Identify accounting issues and advice companies about compliance requirements	Evaluate
CO3	Develop professional expertise in the field of Accounting for Specialized Institutions	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	3	2
CO2	1	2	1	1
CO3	3	2	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Accounts of Banking Companies**

General Information Relating to Book-keeping System; Books of Accounts required: Slip System of Posting; Preparation of Final Accounts: Legal Requirements Affecting Final Accounts; Preparation of Profit and Loss Account; Preparation of Balance Sheet; Income Recognition; Classification of Bank Advances.

Module II: Accounts of Insurance Companies

Books maintained by Insurance Companies; Preparation of Final Accounts of Life Insurance Business; Determination of Profit in Life Insurance Business; Preparation of Final Accounts of General Insurance Business

Module III: Accounts of Electricity Companies

Meaning of Double Accounts System; Special features of Double Accounts System; Accounts of Electricity Companies: Prescribed Forms of Accounts, Preparation of Capital Account, Preparation of Revenue Account, Preparation of Net Revenue Account, Preparation of General Balance Sheet; Financial Provisions: Adjustment of Rates, Depreciation, Contingency Reserve, Development Reserve, Tariffs and Dividend Control Reserve, General Reserve, Restrictions on Dividend, Clear Profits, Reasonable Return, Capital base, Disposal of Surplus, Replacement of Assets.

Module IV: Government Accounting

Differences between Government Accounting and Commercial Accounting; General Structure of the Financial Administration in India; Treasuries; Government funds; Compilation of Accounts; Accounting Structure; The Comptroller and Auditor General of India: Powers and Duties of the C & A G.; Public Accounts Committee

Module V: Accounts of Co-operative Societies

Meaning of Cooperative Societies; Preparation of Day book and Ledger; Closing of Ledgers; Preparation of Receipts and Payments Statement; Preparation of Final Accounts.

General Electives for VIIIth Semester B.Com LLB (Any two)

1	Air and Space Law
2	Criminology, Penology and Victimology
3	Disaster Management Law
4	Human Rights Law

5	Interpretation of Statutes
6	Law on Building and Engineering Contracts
7	Law Relating to Agriculture
8	Law Relating to Child
9	Women & Criminal Law

Air and Space Law

Semester 8	General Elective	(24-273-0803)
-------------------	-------------------------	----------------------

Course Objectives

This course is intended to provide an idea about the need for protection of outer-space as well as law relating to regulation of various activities in outer-space. This course also provides an insight about international laws regulating air traffic management, civil aviation and laws to prevent and control to environmental pollution by space objects and aircrafts.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Understand fundamental principles for the regulation of activities in space.	Understand
CO2	Examine the basics of air traffic management and civil aviation	Analyse
CO3	Devise solutions for various disputes arises between nations in relation to activities in space.	Apply

COs-PSO Mapping Table

CO1	3	2	2	3
CO2	3	2	2	3
CO3	3	1	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Introduction to Air Law

Definition of Air law - Nature, scope and source - Development of air laws (Paris Convention 1910, Paris Convention 1919, Madrid Convention 1926, Havana Convention 1928, Warsaw Convention and Chicago Convention 1944) - Freedom of the air and sovereignty in the air

Module II: Air Traffic Management

Legal regime - State obligation to provide air navigation services - ICAO - Membership and organs of ICAO -Legislative, administrative and judicial functions - Economic and technical regulations

Module III: Safety and Security in Civil Aviation

Liability in international civil aviation - Manufacturers, operators, operators' agents and maintenance contractors - Third party liability for surface damage - Rights and Privileges of air passengers – Rules relating to Air Cargo - Aviation related Environmental Problems - Aviation Insurance - Aviation terrorism - International norms: conventions, protocols and regulations - Regulations in India - Air safety provisions - Settlement of Aviation Related Disputes

Module IV: Space Law and International Treaties

Definition, nature, scope and development – Sources - International and Intergovernmental Organizations - Non-governmental Organizations and Space Activities - UN and Outer Space The Law of Outer Space - principle of res communis– UN General Assembly resolution 1962 (XVII) adopted in 1963 – The treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies1967- Convention on International Liability for Damage Caused by Space Objects, 1972 - Convention on the Registration of Objects Launched into Outer Space 1974 -Principles Relevant to the Use of Nuclear Power Sources in Outer Space1993-The Agreement on the Return of Objects Launched into Outer Space 1968 - Agreement Governing the Activities of States and other Celestial Bodies 1979 - Declaration of Guiding Principles on the Use of Satellite Broadcasting (UNESCO) 1972 - Principles Governing the Use by States of Artificial Earth Satellites for International Direct Television Broadcasting 1983 - Principles on Remote Sensing 1986 -Geostationary orbit - Bogota Declaration 1976.

Module V: Use of Space technology

Peaceful and non-peaceful - Remote sensing - Environmental protection - Commercialization of Space Activities – Settlement of Space Disputes

Criminology, Penology, Victimology

Semester 8	General Elective	(24-273-0804)
-------------------	-------------------------	----------------------

Course Objectives

This course aims at the interrelating the concepts of crime and punishment-understanding the concept of criminology and the various theories of criminology and its relevance in criminal law, explaining the concept of punishment, the theories of punishment and the philosophy underlying each theory. It also aims at acquiring knowledge regarding the classification of offences in the context of sentencing. The course throws light on understanding the concept of rehabilitation in the context of the various correction and rehabilitative techniques employed by the criminal justice system and the efficacy of such techniques in achieving its purpose. It also enables to identify the role of victim in criminal justice system and rights of victims in the criminal justice system.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Understand factors as put forth by the various schools of criminology that influence crime and to relate the crime to different factual situations	Understand
CO2	Analyse the sentencing policy and to evaluate the propriety of punishments imposed on the offenders	Analyse
CO3	Evaluate the efficacy of the rehabilitative and correctional techniques and to assess protection of rights of the victims.	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	2	3
CO2	3	2	2	3
CO3	3	1	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Schools of Criminology and factors of Crime Causation**

Criminology - nature, scope and its relevance in Criminal justice administration. Schools of criminology - classical, neo classical - positive school - sociological - cartographic - psychological – psycho analytical school - Radical school of criminology- Causation of crime- hereditary – factors of crime causation-- chromosomal factors - mental deficiency – environmental factors-economic and social factors-poverty - family - school - religion – media

Module II: Sentencing and Criminal Justice Administration

Judicial Discretion in Sentencing- Correctional and Rehabilitative techniques- institutional correction of the offenders- Indeterminate sentencing and sentencing till end of natural life-Probation institutions of correction- Clemency Powers- Pardoning Powers under Constitution and Code of Criminal Procedure -Suspension, Commutation, Reprieve, Respite and Remission-Probation- After care services for adult and juveniles-duty of the state to rehabilitate-corrective labour-duty of state to maintain dependents of convicts.

Module III: Theories of Punishment- Kinds of punishment

Concept of punishment –justification for punishment - Theories of punishment –kinds of punishment-corporeal and incorporeal punishment- punishments under Indian Penal Code- punishments in socio-economic offences- punitive treatment for habitual offenders- mandatory death penalty- Constitutional validity of capital punishment- mode of execution and its validity

Module IV: Prison System and its Administration-Rights of Prisoners

Evolution of Prison System in India - Evolution of Prison System in U.K and U.S- Prison Laws in India-Prison Administration- Role of Judiciary in prison administration- Prisoners' Rights- Judicial Reforms-Solitary and separate confinement- classification of prisoners-emerging forms of punishment-community service, public shaming etc- Parole, furlough and other kinds of prison release- open prisons- prison labour- prison offences.

Module V: Classification of Victims and Protection of Victim Rights

Victimology - conceptual meaning and scope–Primary, Secondary and Tertiary victims-need for protecting victims of crimes—International laws on Victim Justice-impact of Victimisation — circumstantial victims-women and children as victims-special protection to women and child victims-victims of domestic crimes-victims of crime as witnesses-statutory provisions- Compensation to victims- Restitution-concept of Restorative justice-need for protection through legislation

Disaster Management Law

Semester 8	General Elective	(24-273-0805)
-------------------	-------------------------	----------------------

Course Objectives

This course is intended to provide an idea about the danger of disasters and the need to manage those issues. It will give an overview about environmental issues and health issues arising from disasters. Further, it also provides an insight about various methods to deal with disasters and its effects and the legal mechanisms available to deal with issues related to disasters.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Understand the impact of man-made and natural disasters on human life, property and environment	Understand
CO2	Evaluate role of law in disaster management	Evaluate
CO3	Equip the students to take lead role to coordinate with authorities in dealing with disasters	Apply

COs-PSO Mapping Table

CO1	3	2	2	3
CO2	3	2	2	3
CO3	3	1	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Introduction

Disaster - definition - need to widen it - reference to international documents - natural and man-made causes.

Module II: Effects of Disasters

Consequences of disaster-problems-environmental issues–destruction and disruptions in state facilities - scarcity of water, food, houses etc.

Module III: Health Issues

Health issues-eruption of diseases-lack of communicative facilities – disruption of state machinery.

Module IV: Legal Framework and Disasters

Laws response to disasters - machinery for action – authorities constituted - powers and functions of authorities - role of police

Module V :Authorities in India

Co-ordination of central authorities and state authorities – NGO activities and funding mechanisms of government – communication between service providers and service receivers.

Human Rights Law

Semester 8	General Elective	(24-273-0806)
-------------------	-------------------------	----------------------

Course Objectives

The course provides an introduction to human rights philosophy, principles, instruments and institutions. The course introduces the main United Nations Conventions and legislations in India

for protection of human rights. It also gives an overview of contemporary challenges, current issues and debates in human rights.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Gain substantive knowledge of the international law and policy of human rights.	Understand
CO2	Develop analytical skills to appraise human rights instruments, policies and practices.	Analyse
CO3	Examine the contemporary challenges and trends in human rights theory and practice.	Evaluate

COs-PSO Mapping Table

Interpretation of Statutes

Semester 8	General Elective	(24-273-0807)
-------------------	-------------------------	----------------------

Course Objectives

This course provides an idea about how a legislation can be interpreted in cases of ambiguity. It also enlightens the students about various rules and principles applicable while interpreting a legal provision. Further this course gives an idea about the importance of various tools for interpretation; the special rules applicable to interpretation of Constitution; and the special rules relating to legislative interpretations.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the principles of interpretation of statutes	Understand
CO2	Apply principles of interpretation of statutes in legal practice	Apply

CO3	Apply principles of interpretation of statutes in administration and dispensation of justice	Apply
-----	--	-------

Law on Building and Engineering Contracts

Semester 8	General Elective	(24-273-0808)
-------------------	-------------------------	----------------------

Course Objectives

With the growth in population and industrial activity, construction activities are on an all-time rise. This calls not merely for qualified technical persons in abundance but also on lawyers with knowledge on how the sector works along with drafting agreements to suit the needs of the industry. The objective of this course is to introduce students to the nuances of building contracts to familiarise them to the notions specific to this sector, the drafting and enforcement of such contracts.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the basic clauses in Engineering and Building Contracts	Understand
CO2	Examine role of stakeholders in Engineering and Building projects	Analyse
CO3	Apply contract law principles to provide remedies for breach of Engineering and Building Contracts	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	1	3	2	2
CO2	3	2	3	1
CO3	2	1	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Nature of Building and Engineering Contracts

General principles of contract law – proposal- acceptance – withdrawal – words and phrases used – Build Operate Transfer contract – Builder – Building scheme – Defect Liability period–Estimate–prime cost sum;Tenders–requisites–negotiations–criteria for fixation of price.

Module II: Actors Involved

Architect – Engineer – Quality surveyor – project manager; definitions – qualifications – duties – powers – limitation of powers – liability towards – employer – contractor and third parties; Subcontracts – relation between contractor, subcontractor and owner- building and other construction workers

Module III: Performance

Specific performance – obligation of employer and contractor – contracts where time is of essence – extension of time – extra – variations – alteration – additions – omissions – approval and certification– price and payment.

Module IV: Defects and Breach

Defect Liability Period–maintenance and defect clause–frustration of contract–novation of contract – waiver and estoppels; breach – anticipatory – theory of damages – standard of proof – calculation of damages – forfeiture – determination – vesting of materials.

Module V: Interpretation

Literal construction – harmonious construction – implied terms – non obstante clause – damages – arbitration clause – power to omit works – proper use of stipulated material – clauses prohibiting award of damages.

Law Relating to Agriculture

Semester 8	General Elective	(24-273-0809)
-------------------	-------------------------	----------------------

Course Objectives

This course touches upon nearly every aspect of the law that regulates one of the most important and diverse sector of our economy, Agriculture. It aims to familiarise the students with the history of agricultural law in India, the constitutional scheme and offers various characterization of agricultural legislations and policies impacting the industry and farmers rights. Further the course looks at India's commitments in terms of international legal frameworks pertaining to food and agriculture.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Understand policies for promotion of agriculture	Understand
CO2	Appreciate legal framework for protection of farmers rights	Evaluate
CO3	Examine international legal standards on agriculture	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	3	2	2
CO2	2	1	3	2
CO3	1	2	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Introduction to Agriculture Law and Policy**

Historical context – Agricultural economy at the time of independence and post-independence – Constitutional Scheme – Five year plans and rural development – New Agricultural Policy – Concept of Sustainable Agriculture

Module II: Regulation of Seed Industry and Plant Variety Rights

Domestic laws applicable to crop seed industry – Supervisory authorities and agencies – Review of Seeds Act 1966 and the Seeds Rules 1968–Seeds (Control) Order 1983–Plant Quarantine (Regulation of Import in to India) Order 2003 – Farmers rights and Breeders rights – Protection of Plant Varieties and Farmers' Rights Act 2001 (PVR Act)

Module III: Agricultural Product Marketing, Safety and Liability

Regulated market system–Agricultural Produce Market Committee (APMC) Act, 2017– Trade policy and export strategy – Food safety standard setting – Food Safety and Standards Act 2006 and FSSAI – Product Liability

Module IV: Agricultural Financing in India

Rural credits and co-operatives in India – The role of NABARD – Informal credit system – Self help groups – Restructuring of rural financial institutions – Peasants and Dairy co-operatives.

Module V: International Legal Standards on Agriculture

Overview of WTO and Agriculture – UNIDROT and Agriculture – Contract Farming –

Agricultural land investment contracts – International Plant Protection Convention (IPPC)

Law Relating to Child

Semester 8	General Elective	(24-273-0810)
-------------------	-------------------------	----------------------

Course Objectives

This course aims to provide an insight in to the significance of giving special treatment to the children and to have special legislations to deal with children. This course is also aims to impart knowledge regarding the various UN conventions relating to Children and to analyse the Indian Legislations in comparison with the provisions of the UN convention. The course also gives an insight on the various facets of rights relating to children in the domestic laws and impart knowledge about the special legislations enacted to protect children from sexual offences.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Understand legal provisions for protection of child rights	Understand
CO2	Evaluate the efficacy of the various provisions the existing gaps in special legislations	Evaluate
CO3	Analyse whether the Indian Legislations are in consonance with the international standards	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	1	3	2	3
CO2	2	2	3	2
CO3	2	3	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Content

Module I: Evolution of Rights of Child and International laws

Historical development of special treatment for children – concept of childhood –Constitutional Perspective-norms in national law - norms in international law – comparative analysis-Convention on the rights of the child.

Module II:Protection of Child Rights under Civil laws

Rights and immunities of children under municipal law-contract-tort-crime–Personal Laws and child- inheritance - maintenance -adoption and guardianship.

Module III: Child Welfare Legislations

Child labour- prohibition-welfare legislations- Education- Child Marriage Prohibition

Module IV: Juvenile Delinquents and Children in need of Care and Protection

Juvenile Justice Act- Treatment of child in conflict of law- Special mechanisms envisaged under the Juvenile Justice Act - philosophy reflected under-Treatment of child in need of care and protection - provisions relating to adoption – domestic and inter country adoption.

Module V: Special Legislation relating to Sexual Offences and Exploitation

Sexual offences against Children- POCSO- Trafficking of children–Child pornography.

Information Technology Law

Semester 8	Special Elective	(24-273-0813)
-------------------	-------------------------	----------------------

Course Objectives

The objective of this course is to provide an idea about the cyber laws in India as well as other countries. It enlightens the students about the law relating to e –commerce and various nuances involved in it. The course also provides an idea about various types of cybercrimes and the law relating to it; digital signatures and electronic signatures as well as enforcement issues in cyber space.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Get insights about cyberspace and rights of individuals in cyberspace	Understand
CO2	Analyse legal framework governing cyberspace	Analyse
CO3	Identify legal issues involved in cyberspace and suggest legal remedies	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	3	32
CO2	3	2	3	2
CO3	3	2	3	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Information Technology and Law

Computers and its Impact in Society - Overview of Computer and Web Technology - Need for Cyber Law - Cyber Jurisprudence at International and Indian Level -International Perspectives - UN and International Telecommunication Union (ITU) Initiatives - Council of Europe - Budapest Convention on Cybercrime - Asia-Pacific Economic

Cooperation (APEC)- Organization for Economic Co-operation and Development (OECD)-
World Bank - Commonwealth of Nations

Module II: Constitutional and Human Rights Issues in Cyberspace

Freedom of Speech and Expression in Cyberspace - Right to Access Cyberspace – Access to Internet - Right to Privacy - Right to Data Protection- Blockchain, Cyber security, Artificial Intelligence

Module III: Cyber Crimes and Legal Framework

Cyber Crimes against Individuals, Institution and State - Hacking - Digital Forgery - Cyber Stalking/Harassment - Cyber Pornography - Identity Theft and Fraud - Cyber terrorism - Cyber Defamation -Different offences under IT Act - Relevancy of Admissibility of Computer Evidence - Cyber Forensics.

Module IV: Cyber Torts and IPR issues

Cyber Defamation - Different Types of Civil Wrongs under the IT Act- Interface with Copyright Law - Interface with Patent Law - Trademarks and Domain Names Related issues

Module V: E Commerce and Dispute Resolution

Concept - E-commerce-Salient Features - Online approaches like B2B, B2C and C2C - Online contracts - Click Wrap Contracts – I T Act- Applicability of Indian Contract Act- Concept of Jurisdiction - Indian Context of Jurisdiction and IT Act- International Law and Jurisdictional Issues in Cyberspace- Dispute Resolutions

Banking Law

Semester 8	Special Elective	(24-273-0814)
-------------------	-------------------------	----------------------

Course Objectives

This course aims to foster a comprehensive understanding of banking law, emphasizing its practical application in regulatory compliance and operational contexts. Students will refine analytical and critical thinking abilities through the evaluation of intricate issues concerning banking regulations, customer relationships, and technological advancements. Additionally,

the course aims to cultivate research proficiency essential for investigating and comprehending banking laws, regulatory frameworks, and relevant judicial precedents impacting the Indian banking sector.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to :		
CO1	Understand the functioning of banks	Understand
CO2	Analyze the regulatory framework governing banking operations and	Analyse
CO3	Explain control mechanisms imposed by the Reserve Bank of India.	Analyse

COs-PSO Mapping Table

Law of Carriages

Semester 8	Special Elective	(24-273-0815)
-------------------	-------------------------	----------------------

Course Objectives

This course aims to develop a comprehensive understanding of transportation law principles, legal doctrines, and their application in regulating various modes of carriage of goods. Students will enhance their analytical and critical thinking skills by evaluating complex issues concerning the liability of carriers, international conventions, and multimodal transportation. Additionally, the course seeks to cultivate research skills essential for exploring and understanding transportation laws, comparative legal frameworks, judicial precedents, and legislative developments.

Course Outcomes (COs)	Bloom's Taxonomy
------------------------------	-------------------------

		Level
After completion of the course, the student will be able to:		
CO1	Understand principles of transportation law	Understand
CO2	Analyze the legal frameworks governing carriage of goods by land, air and sea	Analyse
CO3	Explain law governing multimodal transportation of goods	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	2	3
CO2	1	2	2	2
CO3	3	3	2	2

1-Low Correlation

2-Medium Correlation

3-High Correlation

Course Contents**Module I: Overview of Transportation Law**

Contract of transportation – Definition of Parties – Concept of Common Carrier — Public Carriers – Distinction with Private Carriers – Liability of carriers under Common Law – Exemption from liability.

Module II: Carriage of goods by Land

The Carriage by Road Act and Rules – The Railways Act – Convention on the Contract for the International Carriage of Goods by Road (CMR) 1956 – Consignment Note – Waybill – Liability of Railway Company for loss of goods

Module III: Carriage of Goods by Air

Warsaw Convention 1929 – The Hague Protocol, 1955 – Montreal Convention 1999 – Carriage by Air Act– Compulsory documents of carriage – Airway Bill – Liability of airlines – Limitation of liability.

Module IV: Carriage of Goods by Sea

Affreightment contracts – Charter party and bill of lading – The Hague – Visby – Hamburg and Rotterdam Rules – Indian Bills of Lading Act – Carriage of Goods by Sea Act

Module V: Multimodal Transportation and Dispute Resolution

Definition of Multimodal Transportation – Multimodal Transportation of Goods Act–
Dispute resolution Provisions under the Commercial Courts, Commercial Division and
Commercial Appellate Division of High Courts Act

Semester 8	Special Elective	(24-273-0817)
-------------------	-------------------------	----------------------

Course Objectives

This course aims to foster a comprehensive understanding of corporate finance principles, legal doctrines, and their application in capital raising and financial management. Students will enhance analytical and critical thinking skills by evaluating complex issues concerning securities issuance, regulatory compliance, corporate governance, and financial risk management.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the objectives of regulating corporate financing	Understand
CO2	Analyze the legal framework governing the issue of securities	Analyse
CO3	Evaluate the investor protection measures	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	2	3
CO2	2	3	2	2
CO3	3	1	2	3

1-Low Correlation

2-Medium Correlation

3-High Correlation

Course Contents**Module I: Introduction to Corporate Finance**

Objectives of corporate finance – Instruments for raising finance -Issue of securities- acceptance of deposits-Factoring-Leasing and Hire-purchase- Leveraging- Debt-equity Ratio.

Module II: Public Issue of Shares

Public Issue of shares- Prospectus-Listing requirements-Materiality of disclosure-Eligibility conditions for Issuers- Minimum Public Shareholding-Reservation in public issue- Promoters Contribution and Lock in-Pricing of Securities- - Crowd funding.

Module III: Other Kinds of Share Issue

Regulatory Controls over other kinds of issue – Right issue – Bonus Issue– Preferential issue- Issue of Depository Receipts- Private placement - Qualified Institutional Placement- Institutional Investors.

Module IV: Issue of Debt Securities

Listing requirements - Functions of debenture trustee-Creation and registration of charges - Doctrine of Capital Maintenance- Creditor protection- Law governing acceptance of deposits by companies -Deposit Insurance.

Module V: Alternate Investment Funds

Kinds of Alternate Investment funds- Private Equity-Venture Funds-SME Funds- Social Venture Funds- Real Estate Fund-Investment Conditions and Restrictions- Crowd Funding.

2	General Elective 3
3	General Elective 4
4	Special Elective 3
5	Special Elective 4
6	Special Elective 5

1. Mediation, Conciliation and Arbitration

Semester 9	Course 1	(24-273-0901)
-------------------	-----------------	----------------------

Course Objectives

Owing to the many drawbacks of the mainstream judicial dispute settlement, the understanding of alternative dispute resolution (ADR) is a necessity for any modern lawyer. Today, students of law must be equipped with the theoretical and practical knowledge of specialised mechanisms of dispute resolution which are both time and cost effective, and aids the disputing parties to reach settle the differences. The course, thus, explores the concept of alternative dispute resolution and the various established ADR mechanisms with an emphasis on Mediation. The course aims to provide training in practical skills apart from theory.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Acquire the skills of settling a dispute at the pre-trial stage	Apply
CO2	Evaluate the procedures of dispute settlement outside formal court system	Evaluate
CO3	Draft agreements for mediation including settlement agreements	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	3	3
CO2	2	2	3	3
CO3	2	2	3	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course contents

Module I : Introduction to Alternative Dispute Resolution

Understanding Conflict and Disputes – Modes of Dispute Resolution – Advantages of ADR – Different forms of ADR – Legal framework in India

Module II : Importance of Mediation and Key Concepts

Theory of restorative Justice and Traditional Mediation Practice – New approaches to mediation – Essential elements and processes – Role of the mediator

Module III : Settlement agreements and mediation laws in India

Decision making techniques - Drafting of agreements - sanctity of mediated agreements - enforcement laws and procedures.

Module IV : Important Developments in Mediation

Growth of virtual dispute resolution – Commercial mediation - UNCITRAL Model Law – Singapore Convention on Mediation.

Module V : Conciliation and Arbitration

Meaning of conciliation – conduct of proceedings – settlement agreement – relation to arbitral and judicial proceeding; Arbitration – meaning of – difference with other kinds of mechanisms – Arbitration agreement – Tribunal – Award.

Evaluation Pattern

Practical sessions should comprise around 50% of the total allotted teaching hours of this paper.

Evaluation Scheme

- a) Simulation activities within class room and maintaining its records- 30 marks,
- b) Live observation of procedures and recording the same- 30 marks
- c) Internal examination – 20 marks
- d) Viva-voce examination- 15 marks
- e) Attendance- 5 marks,

The viva-voce shall be conducted by a panel of internal and external expert.

General Electives for IX Semester B.Com LLB (Any Two)

1	Animal Protection Laws
2	Intellectual Property Laws
3	Forensic Science and Medical Jurisprudence
4	Healthcare Law
5	Law of Local Self Government
6	Law of the Sea
7	Law, Poverty and Development
8	Law and Medicine
9	Human Rights & Criminal Justice Administration

Animal Protection Laws

Semester 9	General Elective	(24-273-0902)
-------------------	-------------------------	----------------------

Course Objectives

The course intends to discuss fundamental questions such as relationship between man and animal, role of culture and belief in protection and exploitation of animals and the status of animals as property. It introduces the students to the broad range of laws that deals with companion animals, farm animals, animals used for entertainment and animals used for scientific experimentation.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Appreciate the legal debates on relationship between man and animal.	Evaluate
CO2	Understand the cultural, economic and legal context of animal use and exploitation	Understand
CO3	Analyse various laws dealing with protection of animals and their welfare.	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	2	3
CO2	3	2	3	3
CO3	3	2	3	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Introduction**

Animals- moral status- Different approaches- philosophic, religious scientific and historical- man and his relationship with animals-Humanism and compassion to animals- Position of animals in nature- *ferae naturae* and *ferae mansuatae naturae*- Kind of protection needed for animals.

Module II: Wild Life Protection

Laws on Wildlife Protection- Ownership of wild life- Public trust doctrine-First man who possess it- Wild life protection legislations in India- National and international legal framework on wild life protection- Critical wildlife habitat under Forest Rights Act- Symbiotic relationship between wildlife and tribal people – human-wildlife conflict.

Module III: Law Relating to Work Animals

Domestication- Farm animals-Use of animals for entertainment- Laws relating to zoo- Use of animals for agricultural purposes- Cruelty towards animals– Law on prohibition of cow slaughter- Street animals- Elimination of dangerous and wandering animals - judicial responses- Domestication and use of elephants in Kerala- Law relating to Pets.

Module IV: Law Relating to Experimentation in Animals

Use of animals in scientific research-International and National framework - regulating animal experimentation- Policies and guidelines.

Module V: Ecosystem and Animal Conservation

Ecological awareness and new approach to animal rights- Ecosystem and its conservation- relevance of wildlife and animal conservation- Laws and judicial perspectives - Animal Welfare Board- Constitution and purposes – cruelty against animals – protection of endangered species.

Intellectual Property Laws

Semester 9	General Elective	(24-273-0903)
-------------------	-------------------------	----------------------

Course Objectives

With the tremendous growth in technology and communication devices, information and related products have become the most valuable assets. The objective of this course is to identify what elements of such information and newly created products can be protected under law. This course also identifies the different kinds of intellectual properties that are protectable under the Indian law, what subject matter is protected under the different kind of IP, who can own these kinds of properties and what their rights are. More importantly the course will help students appreciate how the rights of public are balanced against this private right.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the nuances of IP legislations and its protection	Understand
CO2	Appreciate the need and technique of protection of public interest	Evaluate
CO3	Create and acquire different forms of IP	Create

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	2	2
CO2	2	3	3	3
CO3	3	2	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Overview of Intellectual Property**

Concept of Intellectual Property – its relation vis-à-vis property – rationale of its protection policy considerations – social, economic and political dimensions of IP – its role in industrial and other developments

Module II: Copyright

History and evolution – standard of ‘originality’ – ‘works’ that are protected – duration of protection – procedure for registration – meaning of copyright – assignment and licensing of rights – infringement – permitted uses of copyrighted works and its significance – remedies against infringement; Neighbouring rights – Performers rights – rights of Broadcasting organisations; International IP norms – Berne Convention – TRIPS – TRIPS Plus

Module III: Patent

History and evolution – meaning of inventions – standards of novelty, inventive step and utility – category of patentable inventions – procedure for registration and duration of protection – rights – assignment and licensing of rights – infringement – permitted uses and its significance – remedies against infringement; International IP norms – Paris Convention – TRIPS – PCT.

Module IV: Trademarks

History and evolution – meaning of mark – concept of distinctiveness and deceptive similarity – prohibition of registration of marks – procedure for registration and duration of protection – rights – assignment and licensing of rights – infringement – permitted uses and its significance – remedies against infringement; protection of well-known marks – certification marks – collective marks; remedy of passing off; International IP norms – Paris Convention – TRIPS – Madrid System

Module V: Others Forms of IP

Industrial design, geographical indication, new varieties of plants, semiconductor integrated circuits, trade secrets, protection of domain names, traditional knowledge, traditional cultural expressions – their history and evolution – standards of protection – subject matter rights – infringement of rights and its remedies; International IP norms – Paris Convention TRIPS – Hague System

Forensic Science and Medical Jurisprudence

Semester 9	General Elective	(24-273-0904)
-------------------	-------------------------	----------------------

Course Objectives

The course aims at giving the students the use of science as evidence in the courts of Law for proving the commission of crimes. It aims at giving the students the complete account of how science can help to prove commission of crime beyond doubt. The course is also aimed to find out how these evidences are accepted by courts in India.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand how scientific evidence can be used in crime detection	Undersand
CO2	Appreciate advancements in field of forensic science	Evaluate
CO3	Apply principles of evidence in forensics	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	2	3
CO2	2	2	2	3
CO3	3	2	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Origin and Development of Forensic Science**

Forensic science - origin and development - importance of forensic science in criminal investigation- Anthropology-Odontology-Pathology & Biology-Psychiatry & Behavioural Science-Toxicology.

Module II: Documents

Scientific examination of documents- signatures and handwritings- Digital Forensics- Forensic ballistics- finger printing/DNA printing - blood and body fluids-hair- rights of the accused

Module III: Modern scientific advancements

Brain finger printing – Narco –analysis-polygraph-rights of the accused- evidentiary value -expert opinion.

Module IV: Medical jurisprudence in criminal trials

Medical jurisprudence - definitions, origin and development -importance and relevance in criminal trials.

Module V: Basic Principles and evidentiary value

Basic principles and rules on evidentiary value of conclusions of medical personnel - medical jurisprudence in India and the courts.

Health Care Laws

Semester 9	General Elective	(24-273-0905)
-------------------	-------------------------	----------------------

Course Objectives

The course is intended to give the students an overall picture about the laws relating to healthcare in the national and international level. The course is also aimed at giving the civil and criminal consequences of acts that affect healthcare.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand laws governing health care	Understand
CO2	Engage in legal practice involving medico-legal cases	Apply
CO3	Analyse law regulating health care institutions and health professionals	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	2	3
CO2	3	2	3	2

CO3	3	2	3	3
1-Low Correlation 2-Medium Correlation 3-High Correlation				

Course Contents**Module I: Health – Basic understandings**

Meaning and concept- Distinction between health and disease-Development of health care in India-Pre British, British and post British period- health care systems-Allopathic and Indian System of Medicines- professional ethics - regulation of medical education

Module II: Right to Health Care Services

Concept of right to health- International obligations of state - Constitutional provisions - judicial approach -Common law - medical ethics - patient rights - consent for treatment - right to medical records

Module III: Liability for Professional Negligence

Nature of doctor- patient relationship-Tort of negligence and trespass-standard of care-Liability under consumer law–liability under criminal law

Module IV: Regulation of Institutions

Medical and para medical institutions – other medical institutions - corporate position. Registration of medical professionals –clinical establishment legislations-regulatory authorities- violence against healthcare institutions -functions of Medical Council, Dental Council, Pharmacy Council, Nursing Council - registration under different system of medicines - Regulation of manufacture and storage of medicine - sale - advertisement-Drugs and Cosmetics Act, and rules- drug price control orders.

Module V: Ethical Issues in Health Sector

Special provisions relating to mental healthcare-shift in the Mental Healthcare Act-International Human Rights norms– Bio-ethics-transplantation of human organs-pre-natal diagnostic techniques - AIDS control - medical termination of pregnancy and euthanasia. - Medical waste disposal- disputes relating to medical insurance.

Law of Local Self Government

Semester 9	General Elective	(24-273-0906)
-------------------	-------------------------	----------------------

Course Objectives

The course provides an understanding on the operation of the democratic process at the grass root level in India. It gives an understanding as to how the Panchayati Raj System has evolved and how governmental power devolves and operates through these institutions.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the process of decision making at local self-government level	Understand
CO2	Appreciate functioning of decentralized democratic system	Evaluate
CO3	Analyse of the policies and programs initiated by the institutions for promoting community welfare	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	2	2	2
CO2	3	2	3	3
CO3	2	3	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Basic Understandings on Democratic Decentralization**

Local Government system in the legal structure - powers and functions – governmental and judicial control over local government

Module II Development of Panchayati Raj Institutions in India:

Evolution of Panchayati Raj System in India - a historical perspective –village panchayats in ancient India-Gandhiji's ideas on village panchayat as unit of self-government-Response of the Constituent Assembly towards the Gandhian idea - The nature, scope and spirit of Art. 40 of the Constitution.

Module III : Constitutional Position of Panchayati Raj Institutions

Development of Panchayati Raj institutions in the post Constitution period - Experiments in democratic decentralisation - Reports of Balwant Rai Mehta Committee, Ashok Mehta Committee etc. Emergence of Panchayati Raj with Constitutional system - 73rd Constitutional Amendment - its implications and consequential developments.

Module IV: Functioning of Panchayati Raj Institutions

Powers and functions of the various Panchayati Raj institutions-financial powers-finance commission - tax collection – welfare activities - Governmental and Judicial control over Panchayati Raj institutions- Local Self Government Ombudsman

Module V: Institutions of Local Self Government in the State of Kerala

The Kerala Panchayati Raj Act- the structure of Panchayati Raj institutions at various levels-their composition-election of office bearers-meetings of the various bodies.

Law of the Sea

Semester 9	General Elective	(24-273-0907)
-------------------	-------------------------	----------------------

Course Objectives

The course throws light on the governance regime established by both customary international law and UNCLOS framework in various maritime zones and international waters. The course will also draw attention to the management and conservation of living resources, the protection and preservation of marine environment and the dispute settlement mechanism of law of the sea. Knowledge of the jurisprudence of the international courts and tribunals would play a significant role in the clarification of the International scheme pertaining to emerging issues of law of the Sea.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand law governing sea under UNCLOS regime	Understand

CO2	Examine rights, duties and liabilities of nation states with respect to sea	Analyse
CO3	Explain legal framework for protection of fisheries and other ocean resources	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	3	2
CO2	3	3	3	2
CO3	3	3	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Introduction to Law of the Sea**

International Law of the Sea- Historical Overview- Mare Liberum & Mare Clausum- Sources-Customs- international Conventions- UNCLOS Framework – Law Making Treaties adopted by IMO and Other International Bodies- Decisions of ICJ , ITLOS and Other International Tribunals

Module II: Internal Waters and Territorial Sea

Internal waters - base line- Types - Access to ports and harbors – for foreign flag vessels, and ships in distress. Jurisdiction in maritime ports - civil and criminal, sanitary regulations. Territorial waters–coastal state jurisdiction & access to ships–Right of Innocent Passage-Contiguous zone.

Module III: Exclusive Economic Zone and Continental Shelf

Exclusive Economic Zone - Continental Shelf - international straights and archipelagos – transit passage. Delimitation of maritime boundaries - opposite and adjacent states - underlying Principles of Resource Exploitation

Module IV: Fisheries Jurisdiction

International Fisheries - Conservation and Exploitation of Resources-Licensing of Fishing-Deep Sea Fishing- IUU fishing.

Module-V: High Seas and Sea Bed Area

High Seas - Concept of Patrimonial Sea & Common Heritage –ABNJ Regime - Piracy and Hot Pursuit International Sea Bed - Exploration and Exploitation – Role of Sea Bed Authority.

Law, Poverty and Development

Semester 9	General Elective	(24-273-0908)
-------------------	-------------------------	----------------------

Course Objectives

The objective of the course is to introduce to the students the basic understanding on Law, Poverty and development and their interrelationship in a changing society. The course will examine law as a tool for achieving socio- economic development of the weaker sections of society. The course aims to acquaint the students with various theories and perspectives of ‘development’ and to keep foremost the rights and interest of the poor and marginalized while examining developmental goals and policies.

Course Outcomes (COs)		Bloom’s Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand interrelationship between Law, Poverty and development	Understand
CO2	Examine problems of the socially and economically weaker sections of the society	Evaluate
CO3	Analyse the beneficial schemes and welfare measures adopted by the state for alleviation of poverty	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	3	2	2
CO2	2	3	3	2
CO3	2	1	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Concept of Poverty and Development

Socio economic philosophy reflected under the Indian Constitutional scheme - conflicting socio-economic philosophies and their reconciliation-the feasibility of tying the nation's basic legal document with any economic philosophy- SDG 1&2

Module II : International Principles and Goals

Poverty reduction initiatives of ILO - United Nations Organisation- Sustainable Development Goals – WTO – UDHR

Module III : Welfare Schemes and Policies

Social and Economic Welfare Schemes and Legislations on Poverty eradication - Employment– MNREGA- Food and nutrition – FSA – Education RTE – Health – Housing-

Module IV: Rights and Access to Justice of the Poor

Right to free Legal Aid-Art.21 of the Constitution of India-Section 304 of Criminal Procedure Code - Rights of the Indigent Person - Civil Procedure Code - Lok Adalats – Legal Services Authorities Act– Right to Services

Module V: Conflict between Development and Poverty

Land Acquisition and Displacement –right to fair compensation and transparency in land acquisition -Impact of forest legislations on tribal and other rural folk- right to livelihood and access to resources-fisheries regulation and the rights of traditional fishermen - environmental issues and the livelihood issues, role of Law.

Law and Medicine

Semester 9	General Elective	(24-273-0909)
-------------------	-------------------------	----------------------

Course Objectives

The principal objective of the course is to provide a detailed overview of various medical laws to the students. It also intends to provide the students with the idea of right to health as a basic human right and its importance in the society. The course is also aims to identify and discuss various ethical issues involved in the area of medical law and to sensitize the students about the need for regulating medical profession and practices.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Analyse ethical and social issues involved in medical practice.	Analyse
CO2	Analyse law governing manufacture, distribution and sale of drugs	Analyse
CO3	Appreciate law regulating human experimentation	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	1	2	2
CO2	3	2	3	2
CO3	2	3	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I- Control over Medical Profession**

Control of medical profession through law - ethical code for medical professionals- Role of MCI Rules on professional conduct - liability of doctors under common law - criminal liability - consumer protection and medical profession- Regulating medical education.

Module II-Ethical Concerns involved in Medical Practice

Laws bearing on medical practice-ensuring quality service-Bioethics - Ethical and legal issues relating to Abortion- ART, Surrogacy, PNDT Act- Euthanasia- control of epidemics and quarantine rule- relevant legal regulations on organ transplantation.

Module III- Control of Drugs

Control of drugs - manufacture – distribution- Drugs and Cosmetics Act- Definition of Drugs- Import, Manufacture of Drugs and relevant rules- prohibition on magical remedies- IPC provisions.

Module IV- Human Experimentation and Medical Science

Human experimentation legal and ethical control - national and international regulations- Nuremberg Code, Helsinki Declaration, other relevant international guidelines- ICMR Guidelines and Rules on Clinical Trials.

Module V- Access to Health Care and Constitutional Framework

Access to medical care and health services –public health emergencies - cost of health care - measures to make the facilities accessible - aspects of social justice in this regard- patent regime and its impact on health sector-compulsory licensing- access to medical records by patients.

Human Rights and Criminal Justice Administration

Semester 9	General Elective	(24-273-0910)
-------------------	-------------------------	----------------------

Course Objectives

The course is designed to provide the students with a comprehensive understanding about human rights infringement in the criminal justice process and the principles adopted by the criminal laws in India to balance the human rights of all the stakeholders in the criminal justice process. The course is intended to educate the students regarding the Constitutional guarantees and the Constituent laws comprising the criminal justice administration and to groom the students to be socially committed citizens.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Identify the human rights violations involved in state actions in the criminal justice process and demonstrate a deep understanding of the fundamental principles of criminal justice administration	Understand

CO2	Apply internationally recognized norms to Indian criminal justice system for safeguarding the rights of various stakeholders involved in criminal justice process.	Apply
CO3	Evaluate the standards adopted by India in safeguarding human rights in the administration of criminal justice.	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	3	2	1
CO2	1	3	2	1
CO3	2	2	3	1

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Introduction to International Human Rights Documents and Criminal Law**

UDHR, ICCPR, Convention Against Torture, Basic Rights of Accused Persons, State Responsibilities, Accusatorial and Inquisitorial System and its features. Indian Laws on Protection of Human Rights

Module II: Constitutional Safeguards and Criminal Justice System

Ex- post facto laws, Double Jeopardy, Right against Self- incrimination, Right against Arbitrary Arrest and Detention, Custodial Torture, Crime Investigation- FIR, Search and Seizure, Right to privacy- ethical and social issues in admissibility of forensic evidence- Medical Examination.

Module III : Right to Fair Trial

Right to Legal Aid and Representation, Private Complaint, Compounding of Offences, Plea-Bargaining, Speedy Trial, Role of Prosecutors, Principles of Fair Trial, Bail, Remand, Witness Protection, Sentencing.

Module IV: Prisoners' Rights

Judicial Responses, kinds of punishment- Classification of Prisoners, Clemency Powers, Parole- Probation, Legality of indeterminate sentencing, Capital Punishment, Rehabilitation.

ModuleV: Role of Victim in Criminal Process

Rights of Victims under International Documents, Role of Victim in Criminal Trial, Victim Compensation, Victim Impact Statements, Rehabilitation of Victims – Role of Judiciary in Victim Centric Justice and Criminal Justice Reforms on Victim Justice

5	Law of Mergers and Acquisitions
6	International Trade Law

Bankruptcy and Insolvency Laws

Semester 9	Special Elective	(24-273-0911)
-------------------	-------------------------	----------------------

Course Objectives

The course aims to enable the students to understand the fundamental principles of law relating to bankruptcy and insolvency. It introduces the students to the legal provisions and case laws on individual, entity and corporate insolvency. The course will help them understand the insolvency

resolution process, the rights of creditors and debtors, the powers and functions of regulatory agencies & insolvency professionals. It will also introduce them to the issues in cross border insolvency.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the general principles relating to insolvency laws.	Understand
CO2	Analyse jurisprudence on insolvency and creditor protection measures	Analyse
CO3	Engage in legal practice on insolvency related matters	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	3	3
CO2	3	2	3	2
CO3	2	3	2	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Introduction to Insolvency Law

The concept of insolvency and bankruptcy – aims, objectives and policies of insolvency laws
-Evolution of the law - Constitutional perspectives - Expert committees on insolvency.

Module II: Personal Insolvency Resolution

Personal insolvency –Insolvency of partnership and other legal entities –Resolution Process – Registration of claims - priority of payment of debts- Proof of debts-Doctrine of reputed ownership-Excluded and exempt property- bankruptcy order- effect of discharge order.

Module III: Corporate Insolvency Resolution

Corporate insolvency resolution process - Operational creditor and financial creditor - Committee of creditors- Regulation of insolvency professionals and agencies- Adjudicatory Authority-Information Utility- Powers and Functions of Insolvency and Bankruptcy Board- Liquidation Process- Powers of liquidator.

Module IV: Administration and Distribution of Assets of Corporate Debtor

Distribution of assets- *pari passu* Principle- Waterfall Mechanism-Undervalued transactions- Preference transactions- Extortionate credit transactions-Fraudulent preferences – Fraudulent trading - Liability of delinquent directors and officers.

Module V: Cross Border Insolvency

Disposition of Foreign assets- Choice of Law- UNCITRAL Model law on Cross border insolvency- Centre of Main Interests [COMI] - Group Insolvency- Pre-Pack arrangements

Marine Safety Law

Semester 9	Special Elective	(24-273-0912)
-------------------	-------------------------	----------------------

Course Objectives

The course introduces the international legal framework for ensuring marine safety and prevention of pollution from ships. The course draws on measures adopted by IMO to address physical safety and stability of ships, manning standards, environmental protection and safety management schemes. The prevention of collision and shipping casualties and the power of authorities to initiate enquiries in to casualties assume relevance.

Course Outcomes (COs)	Bloom's Taxonomy Level
After completion of the course, the student will be able to:	

CO1	Demonstrate knowledge related to standards of marine safety for ships like Construction, seaworthiness and safety management of ships.	Understand
CO2	Apply the measures established by the International Maritime Organization (IMO) to address the physical safety and stability of ships, including manning standards and safety management schemes.	Apply
CO3	Assess the strengths and weaknesses of safety management schemes in ensuring compliance with regulatory standards and fostering a culture of safety within the maritime industry.	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	3	2
CO2	2	3	3	2
CO3	3	3	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Introduction to Marine Safety**

Marine Safety-General principles governing safety of life and property at sea – prohibitions on sending unsafe ships to Sea - liability of owners and operators - duty to provide assistance ship in distress.

Module II: Construction and Manning Standards

Construction and maintenance of ships - survey of ships - continuous survey obligations - IMO code for construction of ship - Indian ship construction rules. Manning of ships - Training, Certification and watch keeping – STCW Convention, 1978, Employment Conditions of sea men – MLC 2006 -Provisions of the Merchant Shipping Act and Rules.

Module III: Physical and Environmental safety

Load line Conventions - loading of ships - unsafe goods – over loading safety appliances, radar, maps and charts - radio and telecommunication rules, lifeboats, buoys etc- Safety Management (ISM) - Environmental safety and Climate change norms for ships.

Module IV: Prevention of Collision

Collision regulations - steering and signaling. Liability for collision -nominal and civil liability

Module V: Shipping Casualties

Investigation of shipping casualties – Authorities and Powers under Indian Law.

Insurance Law

Semester 9	Special Elective	(24-273-0913)
-------------------	-------------------------	----------------------

Course Objectives

The course throws light on the fundamental principles of insurance law. It provides insights on the special features of different kinds of insurance. It helps students to familiarise with the procedure of making insurance claims. It also discusses the regulatory controls over insurance business, the role and functions of regulatory agencies and insurance intermediaries.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the general principles relating to insurance law	Understand
CO2	Analyse the rights and duties of insured and the insurer	Analyse
CO3	Develop critical thinking on various concepts of insurance law	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	3	3
CO2	2	3	3	2
CO3	3	2	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module 1: Introduction and Legal Framework

Nature and definition of insurance -Evolution of insurance-Need for insurance - Classification of insurance- Formation of Insurance contract - Regulation of insurance business in India – IRDA- Powers and functions - Regulation of insurance intermediaries- Ombudsman.

Module II: Features of contract of Insurance

Nature of Insurance Contract- Contract of utmost good faith- Scope of duty of disclosure-Insurable Interest- Proximate Cause-Principle of indemnity- Conditions and warranties-Premium -Attachment and Duration of risk- Factors affecting risk - Excepted perils.

Module III: General Principles of Insurance

Double insurance- Reinsurance-Subrogation-Contribution -Loss and measure of indemnity- Procedure for making insurance claim- Persons entitled to claim-Settlement of claims- Transfer and Assignment of policy.

Module IV: Special features of Fire and Marine Insurance

Subject matter of marine insurance- Hull, cargo, Freight – Kinds of marine policies-Time, voyage, mixed- Maritime Perils-Implied terms in marine policy – Marine Losses-Partial loss and total loss - Abandonment-Fire Insurance- kinds of policies- Valued, Unvalued, Average, Floating Policy- Fire Perils and Exceptions.

Module V: Other Kinds of Insurance

Health Insurance- Property insurance - Liability insurance - Insurance under Motor Vehicles Act-MACT - powers and functions - Public liability insurance - Social security insurance - sickness, old age and unemployment – Employees State Insurance.

International Trade Law

Semester 9	Special Elective	(24-273-0916)
-------------------	-------------------------	----------------------

Course Objectives

This course discusses the legal system governing international trade with particular emphasis on the law of the World Trade Organization (WTO) and the Indian legal framework on the regulation of foreign trade. The objective of this course is to give students a comprehensive overview of the world trading system, with in-depth knowledge of selected segments in this increasingly influential branch of international law. This course is designed for students who may practice in the subject area, either at private firms, think-tanks or in government, or generally for any student who would like to understand the world trading system for personal or scholarly reasons.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the legal structure of international trading system	Understand
CO2	Explain the general rules governing WTO law and dispute settlement mechanism	Analyse
CO3	Appreciate the relevance of the regionalization of trade and identify major regional organizations establishing free trade areas and customs unions	

COs-PSO Mapping Table

CO1	2	3	2	3
CO2	3	2	3	3
CO3	2	3	3	2

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Introduction to International Trade Law**

Basics of international trade and commerce–Historical background of the General Agreement on Tariffs and Trade–The role of international trade in the global development–Sources of international trade law – International economic institutions

Module II: The WTO System

Evolution of WTO – Legal Structure – Principles and working of WTO – Understanding the structures of the Covered Agreements – Trade in Services (GATS) – Trade related aspects

of Intellectual Property Rights (TRIPS) – Dispute settlement understanding

Module III: General Principles of Non-discrimination

Most-favored Nation Treatment (MFN) – History and Basic issues – GATT/WTO cases concerning MFN – National treatment scope and application – History and Basic issues – Like products – GATT/WTO cases concerning National Treatment

Module IV: Exceptions and Trade Remedies

General exceptions – Security exceptions – Anti-dumping – Subsidies and countervailing duties – Safeguards – Protection of domestic market and India's commitments to free trade

Module V: Regional Integration and Trade

Preferential trade agreements – Free Trade Areas – Customs Union – WTO Committee on Regional Trade Agreements (CRTA) – Transparency mechanism – Dispute Settlement

6	Special Elective 8
7	Course Viva-Voce
8	Course Internship

1. Moot Court Exercise and Court Visit

Semester 10	Course 1	(24-273-1001)
--------------------	-----------------	----------------------

Course Objectives

Moot courts are simulation exercises intended to develop advocacy skills in students. Through this course, it is intended to impart practical skills of research, case analyses and strategy, witness handling, and presentation of arguments at the trial and appellate stages of a case. The course shall include moot courts, mock trial, court visit, chamber visit and viva voce. The course exposes the students to the system of administration of justice through court visits and chamber visits.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Articulate and communicate logical and legal arguments	Create
CO2	Develop analytical, research, writing and public speaking skills.	Apply
CO3	Learn the skill of doing client interview, preparing a case and conducting trial in courts and other judicial forums.	Apply

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	3	3
CO2	3	2	3	2
CO3	3	3	3	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Moot Court Exercise (30 marks)

The course teacher will assign three moot court problems to the students and they have to work on all three problems assigned. Students should prepare written submission and present arguments in a moot court setting. Written submission, judgment and oral arguments shall carry 5 marks each. Each student will prepare a case only on one side. The memorial specification given by course teacher should be strictly followed. The oral performance will be evaluated on the basis of communication skills, application of facts, persuasion, use of authorities, and response to questions.

Module II: Mock Trial and Case Analysis (30 marks)

The students are required to do the mock trial and case analysis of two cases, one civil and one criminal. Each student will be required to function as lawyer and witness in the mock trial simulated in the classroom. Case analysis, written submission, examination-in-chief, cross-examination, performance as witnesses and final arguments shall carry 5 marks each.

Module III: Chamber visits (15 marks)

Chamber Visit- Every student shall attend a practicing lawyer's office. The lawyer should have a minimum of 10 years standing at the Bar. A minimum of two hours are to be spent daily with the lawyer observing client dealings, drafting, conducting fact investigations, etc., for at least twenty-four days in the semester. At the end of the chamber visit, a certificate confirming the student's attendance at the lawyer's office will have to be produced.

In the chamber visit they are required to do and record the following:

- Draft minimum of two documents in an ongoing case.
- Read minimum four case files to learn how files are prepared and maintained.
- Learn how to maintain records and accounts.
- Do legal research in at least two cases.
- Observe client interview and counselling with the permission of the lawyer and client in at least two cases.

Module IV: Court Visit and Record (15 Marks)

Court Visit- During the court visit, the students shall observe the trial of one civil and one criminal case. Students may be required to attend two trials in the course of the last two or three years of LL.B. course. They will maintain a record and enter the various steps observed during their attendance on different days in the court assignment. They should maintain a record and write a report of their observation of the following stages:

- a. Framing of charge or issue
- b. Examination in chief
- c. Cross Examination
- d. Final arguments

Court Visit Record- Students are required to maintain a record of their field visit and work done during court visit. Each student will observe two interviewing sessions of clients at the Lawyer's Office/Legal Aid Office, the preparation of documents and court papers by the Advocate and the procedure for the filing of the suit/petition. This will be documented in a record book, which will carry 15 marks. The record should contain two parts:

1. Information about work done during court visit
2. Two legal documents examined during court visit

The record shall be an integral part of the course and it will be evaluated in terms of reflection about the learning experiences of the student. The record must be written in their own words. If two or more students are found to have copied each other's work, both/all the students who are found to have copied will be given zero marks for the work.

Module V: Viva Voce: (10 Marks)

The last component of this course will be a Viva - voce on all the above three components. The viva-voce shall be conducted by a panel of internal and external expert.

Law on Democracy and Elections in India

Semester 10	General Elective	(24-273-1002)
--------------------	-------------------------	----------------------

Course Objectives

This course is designed to discuss and study the law pertaining elections in India. The central focus of this course is on the complex interaction between the democratic process on one side and the legal framework which promotes democracy in India. This course is designed to develop critical thinking about the law of democracy and the electoral process in India. Election in any democracy need to be free and fair and the course will enable the student to analyse the fairness of democratic process in India.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the electoral system in India and its functioning	Understand
CO2	Evaluate the framework of the law of democracy and elections in India.	Evaluate
CO3	Analyse the democratic process in India with a special focus on the electoral process in India.	Analyse
CO4	Analyse the constitutional guidelines and judicial pronouncement with regard to the democratic process as well as the electoral process in India.	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	3	2	1
CO2	1	3	2	1
CO3	2	2	3	1
CO4	1	3	2	1

1-Low Correlation

2-Medium Correlation

3-High Correlation

Module 1: Evolution of the law of Democracy in India

Democracy - Historical underpinnings- formation of a democratic society- different forms of democracy- democratic institutions. Law and Democracy- democracy and modern state- constitutional democracy in India- Self-determination and elections- Concept of State-Relevance of participatory government- Direct democracy

Module II: Democracy and Elections in India

Elections in democracy- Free and Fair Elections - Indian and International Standards- Democratic Bodies and their Functions- Representation and Election- Parliaments as Representative bodies- Political Parties and Elections- Challenges to Indian Democracy- Presidential elections- Election to upper house of the Parliament and Legislative Councils

Module III: Election and Electoral System in India

Electoral Cycle-Election Commission of India-Managing Elections in India. Constitutional provisions with regard to elections- Basic Structure- Democracy -Conduct of Elections- Right to Vote- Universal suffrage in India. Participation in Democracy- access to electoral rolls- right to contest elections. Corrupt Practices in Election- Electoral offences-qualification and disqualification in elections- Defection and its remedies-Decriminalisation of politics- Women participation in Elections- Right to vote and citizenship.

Module IV: Electoral Politics in India

Role of Media in Elections- Paid Media. Role of technology in democratic life-Influence of Caste, Religion and Hate Speech - Electoral Bonds and its regulation-Political Funding of Elections- Electoral Politics in India- Delimitation of Constituencies- one person one vote.

Module V:Judicial Approach to Elections and the role of Election Commission

Judicial Approach to Elections- Election petitions and its limitations- Judicial surveillance of Elections and Electoral System in India- Judiciary as the *Sentinel on the qui vive* for the conduct of elections- Judicial engagement with electoral reservations in India- Constitutional Courts as protectors of democracy and free and fair election.

International Humanitarian and Refugee Law

Semester 10	General Elective	(24-273-1003)
--------------------	-------------------------	----------------------

Course Objectives

The primary objective of the course is to give insights about the main principles of international humanitarian law. It discusses the main issues in international humanitarian law. It enumerates the rights of prisoner of war and the role of international courts in providing redress to them. It helps the students to understand the problems in national implementation of humanitarian law.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the scope and extend of international humanitarian law	Understand
CO2	Analyse Human rights issues concerning prisoners of war and refugees.	Analyse
CO3	Appraise challenges in implementation of humanitarian law	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	2	2	1
CO2	2	3	2	2
CO3	3	2	3	2

1-Low Correlation

2-Medium Correlation

3-High Correlation

Course Contents**Module I: Introduction**

Scope and extent of International Humanitarian Law –Origin of IHL- Sources of IHL-Use of force and IHL - Conflict status and Combatant status-Protection of Combatants in sea and land-Linkages between international Human rights law - IHRL, International humanitarian law-IHL and International refugee law-IRL.

Module II: Armed Conflict

Classification of Armed Conflict- Commencement and Termination of Hostilities-Rights and obligations of prisoners of war-Non- International armed Conflict -War Crimes-Terrorism – War tribunals-International Criminal Law-Protection of women, children and other vulnerable

groups.

Module III: Protection of Civilians and Objects of Cultural Importance

Protected Persons- Civilian objects- Protected objects and property- Cultural Objects- Protection of natural environment- Enemy Property.

Module IV: Refugees

Refugee-Determination of refugee status- UN Convention - International mechanisms for the protection of refugees- Refugee and Migrant- Rights of Refugees- Non-refoulement-Gender related Persecution-Climate Refugees-Refugee with special needs-Exclusion and Cessation of Refugee status-Asylum-Statelessness.

Module V: National Implementation of IHL

National Implementation of International Humanitarian Law-Minimum Standards for Reception conditions -Response of national laws and national courts-Regional refugee protection frameworks- SAARC.

Land Utilisation Laws

Semester 10	General Elective	(24-273-1004)
--------------------	-------------------------	----------------------

Course Objectives

The course seeks to explore the need and objectives of land use controls. It discusses the environmental issues relating to land use pattern. It enables students to get an overview of various laws governing land use, land acquisition and land reforms. It also helps to have an idea on the international norms on land use planning.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Appreciate the laws governing land use pattern.	Evaluate
CO2	Analyse environmental issues related to land utilization.	Analyse
CO3	Explain international norms on land use planning	Analyse

COs-PSO Mapping Table

Disability Law

Semester 10	General Elective	(24-273-1005)
--------------------	-------------------------	----------------------

Course Objectives

This course enables the students to learn the problems faced by the disabled people and to identify the laws for the protection of disable populations is the main objective of this course. It will also help the students to analyse the competency of the laws internationally and nationally for addressing the rights of the disable population. The course aims at motivating the students to act with social commitment for the protection of the rights of the disabled populations and will make them to acquire expertise over the laws governing disabled people. Socially committed advocates will be able to help associations and NGOs on legal issues faced by disabled populations.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the problems faced by disabled persons and the legal framework for protection of disabled persons	Understand
CO2	Develop expertise among lawyers in the area of disability law	Apply
CO3	Assist or advice the government and policy makers for improving laws and policies for disabled people.	Apply

COs-PSO Mapping Table

Law Governing Scientific Research

Semester 10	General Elective	(24-273-1007)
--------------------	-------------------------	----------------------

Course Objectives

The course provides the base for understanding the niche areas of interface between law and scientific research. It provides an overview of the contemporary developments in the area of scientific research and the existing national and international norms for the same. It delves into ethical, legal and social issues and challenges in different types of scientific research.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Familiarize with the contemporary developments in the areas of scientific research and law	Understand
CO2	Equip the students to handle technology based litigations	Apply
CO3	Appreciate the legal and ethical issues involved in scientific research	Evaluate

COs-PSO Mapping Table

CO1	3	2	3	1
CO2	3	1	3	3

CO3	2	3	2	2
------------	----------	----------	----------	----------

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Scientific Research and their Different Forms

Aspects of Scientific research – Constitutional Values and Scientific Research-- Incentives for research - Monopoly for outcome of research - Research for Community interest - Agricultural and Horticultural Research.

Module II: Legal Response to Marine and Space Research

Marine Scientific Research and Atmospheric - space research - Limitations under Customary international law - UNCLOS III Provisions - Research in inland waters, territorial sea, Economic Zone, Continental Shelf and High sea, weapon testing in sea-NTBT and Law of the sea- Research in outer space and atmosphere.

Module III: Human Subject Research: Legal and Ethical Concerns

Research on Human subjects - Types of research – Embryo research and Human genetics for research - research ethics committees and license requirements- Bioethics-Robotics - Blockchain - Consent to research - Confidentiality in health care research – Informed Consent- Problems of applied research –prenatal diagnostics, HIV diagnosis.

Module IV: Pharmaceutical Research and the Law

Research relating to Drugs and Pharmaceutical products – New Drug licensing - Clinical trials guidelines by WHO – European Convention - Drug licensing procedures in India, U.K. and U.S.A.

Module V: Biological Resources and Scientific Research

Research on Biological Resources- International and National Approaches -Protection of animals in research- Biotechnological research - Rules relating to DNA research, guidelines by Bio Safety Commission - Cloning of Human beings-Human rights and ethical issues.

Law of Co-operative Societies

Semester 10	General Elective	(24-273-1008)
--------------------	-------------------------	----------------------

Course Objectives

The course aims to provide an understanding about the concept of cooperatives- society. It enables to acquire knowledge about the evolution of the concept and imparting information about the historical development of co-operative Societies. It aims to acquaint the students with relevant provisions of the Co-operative Societies Act, 1969 and illustrating the structure and functioning of the Co-operative Societies. It also aims discussion on the procedures relating to settlement of disputes, winding up and amalgamation procedure.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Appreciate the advantages of forming a co-operative society	Analyse
CO2	Understand the structure & composition of a co-operative society	Understand
CO3	Explain legal formalities regarding the formation, functioning, winding up & dissolution of a co-operative society	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	3	3	2
CO2	3	2	3	3
CO3	2	3	2	3

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Evolution and Historical Development of Co-operative Societies**

The concept of co-operation–definition, nature, values, objectives and principles- history and development of co-operatives –association and enterprise characteristics- different types of co-operatives - classification of co-operative societies-departmental set up.

Module II: Co-operative Societies Law

Selected provisions of Kerala Cooperative Societies Act–Registration- cancellation and suspension of registration- Powers of Registrar-amendment of byelaws -amalgamation and

division-members-rights and liabilities

Module III: Composition, Powers and Privileges of Co-operative Societies

Management of societies– General body, Board of Directors, Chief Executive Officer–powers, election and nomination –privileges of societies

Module IV: Management of Funds

Properties and funds of societies-disposal of net profit-cooperative education fund- maintenance of fluid resources

Module V: Enforcement Mechanism and Winding Up

Audit of societies-settlement of disputes-execution of awards & decrees - winding up and dissolution of co-operative societies- liquidator, powers and liquidation procedure.

Private International Law

Semester 10	General Elective	(24-273-1008)
--------------------	-------------------------	----------------------

Course Objectives

The objective of the course is to kindle academic interest in Private International Law so as to benefit future legal practice and further pursuit of legal studies. The entire gamut of Indian and English Private International Law, the theories and rules which are in consonance with the need of our contemporary society and modern thought will be the principal focus of this course.

Course Outcomes (COs)	Bloom's Taxonomy Level
After completion of the course, the student will be able to:	

CO1	Familiarize with legal terms, significant theories, and basic legal rules and principles of Private International Law	Understand
CO2	Analyse the different personal laws in relation to problems that arise when courts are dealing with persons domiciled in India with foreign nexus	Analyse
CO3	Address legal issues of persons living abroad in contracts, trade and cross border investment	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	2	1	2
CO2	1	2	3	2
CO3	2	3	2	1

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents**Module I: Introduction to Private International Law**

Nature and scope of private international law – Theories and fundamental concepts - Codification of Private International Law – Distinction between Public International Law and Private International Law - Choice of Law – Renvoi – Concept of Domicile

Module II : Jurisdiction

Jurisdiction involving foreign elements – persons – status and capacity - Jurisdiction over Corporations – Forum shopping – Forum non-convenience – Anti-suit injunctions

Module III: Family and Property Law

Family Law matters - validity and effect of marriage - divorce - legitimacy - adoption – Recognition of Foreign Adoptions - Adoption by foreign Parents - guardianship and maintenance - property - transfer - succession - administration of estates.

Module IV: Contractual Relations and Tortious Liability

Contract – formation – Interpretation - Illegality and discharge – Torts – Double Action ability rule – Insolvency Jurisdiction and effects of foreign insolvency proceedings.

Module V: Foreign Judgment, Decrees and Awards

Foreign judgment – Recognition - Procedure and evidence – Stay of Proceeding – Proof of foreign law – Enforcement of foreign judgments, decrees and Foreign Arbitral Awards

Science, Technology and Law

Semester 10	General Elective	(24-273-1010)
--------------------	-------------------------	----------------------

Course Objectives

This course aims at critically evaluating the challenges for Law in the wake of scientific advancements and the resultant technologies. As science challenges a lot of conventional concepts, ethics and morality, Law has to create a balance between restricting the misuse of the same, while to allow its use for the welfare of mankind. This course aims at having a vivid idea of the international as well as national norms in this regard, having the human rights overtones as the basis.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the conflict between ethics, and morality on the one hand, and scientific advancement on the other and the role of Law in balancing them.	Understand
CO2	Develop the capacity to take a balanced approach in dealing with the conflict between ethics use of technologies	Apply
CO3	Analyse the legal and ethical issues in use of Artificial intelligence	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	2	2	1	2
CO2	1	2	3	2
CO3	2	3	2	1

1-Low Correlation 2-Medium Correlation 3-High Correlation

Course Contents

Module I: Science and Social Conflicts

Impact of science on society–Scientific Advancement and Constitutional Values–Role of law in balancing conflict between science and customary values- rule of social acceptance of norms.

Module II: Ethics in Scientific Research

Scientific research and its social implications-science and ethics-human and animal research- Bioethics - ethical and legal concerns- Privacy, autonomy, self-determination and other human rights in scientific research.

Module III: Scientific Advancements and Law

Science and problem of human civilization-application of scientific knowledge environmental hazards – Nuclear disaster-impact of scientific developments on environment-legal response– State liability- limitations by law.

Module IV : Biotechnology and Law

Problems raised by developments in biological sciences–knowledge in genetics and its social implications- regulation on research over human body materials- human body as property- implications - ethical problems in human genetics- judicial responses- patenting living organisms.

Module V: Artificial Intelligence and Law

Replacing human intelligence by artificial intelligence- Legal and ethical challenges- Artificial intelligence -Robotics- Block chain - Impact on socialization process and limitations- National and international legal measures.

Xth Semester B.Com LLB Special Electives (Any Three)

1	Competition Law
2	Law of Corporate Governance
3	Inter-State Trade & Commerce
4	Sports Law
5	Investment Law
6	International Commercial Arbitration

Competition Law

Semester 10	Special Elective	(24-273-1011)
--------------------	-------------------------	----------------------

Course Objectives

This course aims to develop a comprehensive understanding of competition law principles, legal doctrines, and their application in regulating market behavior. Students will enhance their analytical and critical thinking skills through the evaluation of complex issues related to collusion, abuse of dominance, merger control, and competition policy. Moreover, the course will foster research skills necessary for investigating and comprehending competition laws, comparative legal frameworks, judicial precedents, and legislative developments.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Demonstrate a comprehensive understanding of the basic concepts of competition law, including market types cartels, predatory pricing, and resale price maintenance.	Understand
CO2	Analyze the legal frameworks of competition law in the UK, US, and India	Analyse
CO3	Evaluate the regulation of anti-competitive agreements under the Competition Act.	Evaluate
CO4	Critically assess the regulation of abuse of dominant position in markets.	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	2	2	2
CO2	3	3	2	2
CO3	3	3	2	2
CO4	3	2	2	2

1-Low Correlation

2-Medium Correlation

3-High Correlation

Course Content**Module I :Introduction to Competition Law**

Basic Concepts –Customer and Consumer - Market – Types of Market - Perfect Market, Monopoly, Oligopoly and Monopsony - Cartel - Predatory Pricing - Resale Price Maintenance - Competition – Models of Competition - Competition Policy - Competition Law - Goals of Competition Law.

Module II : History and Development of Competition Law

History and Development of Competition Law - UK and US - An Overview of Legal Framework in USA – UK and EC Competition Law - History and Development of Competition Law in India - Constitutional vision of social justice - Sachar Committee, MRTP Act - Salient features and its amendment in 1991 - Liberalization and Globalization - Raghavan Committee Report - Competition Act - An Overview of Competition Law in India - Important Definitions under the Competition Act

Module III : Regulation of Collusion in the Market

Anti- Competitive Agreements under the Competition Act - Appreciable Adverse Effect on Competition in the Market - Determination of Relevant Market - Rule of Reason and per se Illegal Rule- Horizontal and Vertical restraints – Exemptions – Penalties - Prohibition of Anti-Competitive Agreements in EU, UK and US Laws.

Module IV : Regulation of Abuse of Dominant Position

Introduction - Dominance in the Market - Relevant Market - Effect on Competition in the Market - Abusive Conducts under Indian Law – Penalties - Prevention of Abuse of Dominance under EU, UK and US Laws.

Module V : Regulation of Combinations

Combinations: Merger, Acquisition, Amalgamation and Takeover - Horizontal, Vertical and Conglomerate Mergers - Combinations covered– Regulations – Penalties - Regulation of Combinations under EU, UK and US Laws - Controls over mergers amalgamation and takeovers – Competition Commission - Enforcement Mechanisms under the Competition Act- Competition Advocacy

Law of Corporate Governance

Semester 10	Special Elective	(24-273-1012)
--------------------	-------------------------	----------------------

Course Objectives

This course aims to cultivate a profound understanding of corporate governance principles, legal frameworks, and ethical considerations in business management and shareholder relations. Students will enhance their analytical and critical thinking skills by evaluating complex issues surrounding corporate governance, including regulatory compliance, board effectiveness, and stakeholder management. Furthermore, the course aims to develop research skills essential for exploring and comprehending corporate governance laws, comparative governance practices, case studies, and evolving regulatory frameworks.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Demonstrate a comprehensive understanding of corporate governance models	Understand
CO2	Analyze the role of corporate governance rules	Analyse
CO3	Evaluate the governance structure of companies, including the composition of boards of directors, roles and responsibilities of directors	Evaluate
CO4	Appreciate investor protection measures and analyze specific corporate governance issues.	Evaluate

COs-PSO Mapping Table

Inter-State Trade & Commerce: Comparative Study

Semester 10	Special Elective	(24-273-1013)
--------------------	-------------------------	----------------------

Course Objectives

The course aims to develop a comprehensive understanding of the free flow of trade across state boundaries and the restrictions and regulations that can be imposed. To recall the origin and object of incorporation of provisions relating to trade, commerce and intercourse in the Indian Constitution and to distinguish between the provisions relating to trade, commerce and intercourse under the Indian Constitution and Australian Constitution. The course is intended to give a comparative insight into the Commerce Clause under the U.S Constitution with reference to the provisions of trade, commerce and intercourse in Indian Constitution.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Explore the constitutional framework, judicial interpretations and practical application of the provisions relating to interstate trade and commerce	Analyse
CO2	Explain the purpose and significance of the constitutional provisions related to interstate trade & commerce	Evaluate
CO3	Illustrate the interplay among various constitutional provisions involving interstate trade & commerce.	Evaluate

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	3	2
CO2	2	3	2	3
CO3	2	3	3	2

1-Low Correlation

2-Medium Correlation

3-High Correlation

Course Contents**Module I: Introduction to interstate trade and commerce**

Concept of Interstate trade and commerce – Significance of free trade and Commerce-Evolution of the provisions of interstate trade and commerce- Federalism- Cooperative Federalism.

Module II: Commerce Clause under the US & Australian Constitution

Definition of Commerce Clause under US Constitution- Analysis of the Commerce clause in Australia- Judicial interpretations of Commerce clause- Commerce clause and Federalism- Interstate trade and commerce under Australian Constitution

Module III: Interstate Trade and Commerce under Indian Constitution

Constitutional History- objective of the provisions in the Indian Constitution- distinction between the provisions of the Australian Constitution and the Indian Constitution

Module IV: Restrictions on Trade and Commerce

Distinction between Article 19(1) (g) and Article 301- dimensions of Article 19(1) (g) and Article 301- Power of the Parliament to impose restrictions- restrictions on legislative powers- restrictions on the power of state legislatures- judicial interpretations.

Module V: Inter-state Trade & Commerce and Federalism

Powers Conferred by Legislative entries and Tax laws- Harmonisation and facilitation of Interstate trade and Commerce in Federal set up- GST.

Investment Law

Semester 10	Special Elective	(24-273-1015)
--------------------	-------------------------	----------------------

Course Objectives

This course aims to cultivate a deep understanding of the substantive and procedural aspects of investment law. Students will enhance their analytical and critical thinking skills by evaluating complex investment law issues, including international investment agreements (IIAs) and investor-state dispute settlement (ISDS) mechanisms. Moreover, the course seeks to develop research competence by equipping students with the necessary skills to explore and comprehend investment laws, regulations, and international agreements.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand the scope of investment law, differentiate between domestic and international investment, and analyze its historical evolution and legal framework.	Understand
CO2	Evaluate different types of international investment agreements (IIAs) and their substantive protections, including dispute settlement mechanisms.	Evaluate
CO3	Demonstrate understanding of investor-state dispute settlement (ISDS) mechanisms, including arbitration procedures and the analysis of ISDS case studies	Understand
CO4	Analyse contemporary issues in investment law, including environmental and social responsibility, transparency, accountability, and evaluate reform proposals and future trends	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	3	2
CO2	3	3	3	1
CO3	2	3	2	2
CO4	1	2	2	2

1-Low Correlation

2-Medium Correlation

3-High Correlation

Course Contents**Module I: Introduction to Investment Law**

Concept and Scope of Investment Law - Definition and importance in global economics
Distinction between domestic and international investment law - Historical Evolution - Early treaties and bilateral investment agreements (BITs) - Development of investor-state arbitration - Legal Framework - Investment Protection - Principles of fair and equitable treatment - Protection against expropriation and discrimination

Module II: International Investment Agreements (IIAs)

IIAs - Types and Characteristics - Bilateral Investment Treaties (BITs) - Multilateral treaties and regional agreements (e.g., NAFTA, ASEAN agreements) - Substantive Protections - Investment guarantees and obligations - Dispute settlement mechanisms (arbitration vs. national courts)

Module III: Investor-State Dispute Settlement (ISDS)

Introduction to ISDS - Purpose and evolution - Role of International Arbitration - Arbitration Procedures - Commencement of proceedings - Selection and appointment of arbitrators - Conduct of arbitral proceedings - Significant ISDS cases and their outcomes

Module IV: Contemporary Issues in Investment Law

Environmental and Social Responsibility - Balancing investment protection with sustainable development goals - Transparency and Accountability - Transparency in treaty negotiations and arbitral proceedings - Role of civil society and non-governmental organizations (NGOs) - Reform and Future Trends - Emerging trends in international investment law

Module V: National and International Investment Regulation

National Investment Laws - Regulatory frameworks and investment promotion agencies - Impact of investment treaties on domestic law - International Investment Organizations - Roles of ICSID, UNCITRAL, and other international bodies - Harmonization efforts and model laws

International Commercial Arbitration

Semester 10	Special Elective	(24-273-1016)
--------------------	-------------------------	----------------------

Course Objectives

This course aims to foster a comprehensive understanding of international commercial arbitration's substantive and procedural aspects. Students will enhance analytical and critical thinking skills by evaluating complex arbitration issues and case law. Additionally, the course aims to develop research skills necessary for exploring and understanding arbitration laws, rules, and practices.

Course Outcomes (COs)		Bloom's Taxonomy Level
After completion of the course, the student will be able to:		
CO1	Understand international commercial arbitration, differentiate it from other ADR methods, and analyze its historical and legal evolution, including relevant international conventions and national laws.	Understand
CO2	Demonstrate understanding of arbitration proceedings, including commencement, procedural issues, interim measures, enforcement and setting aside.	Understand
CO3	Evaluate arbitration agreements, including essential elements, enforceability, and related doctrines like separability and competence-competence.	Evaluate
CO4	Discuss contemporary issues in international commercial arbitration	Analyse

COs-PSO Mapping Table

	PO1	PO2	PO3	PO4
CO1	3	3	3	2
CO2	3	3	3	1
CO3	2	3	2	2
CO4	1	2	2	2

1-Low Correlation

2-Medium Correlation

3-High Correlation

Course Contents**Module I: Introduction to International Commercial Arbitration**

Concept and Definition - Distinctions between arbitration and other forms of ADR - Historical Evolution - Legal Framework - Overview of key international conventions (New York Convention, UNCITRAL Model Law) - National arbitration laws and their impact on international arbitration - Arbitration Agreements - Definition and forms of arbitration agreements - Essential elements and enforceability - Doctrine of separability and competence-competence

Module II: Arbitration Institutions and Rules

Major Arbitration Institutions - International Chamber of Commerce - London Court of International Arbitration - International Centre for Dispute Resolution - Singapore International Arbitration Centre - Hong Kong International Arbitration Centre - Arbitration Rules - Overview of institutional rules (ICC, LCIA, SIAC, etc.) - Ad hoc arbitration and the UNCITRAL Arbitration Rules - Appointment of Arbitrators - Criteria and procedures for selecting arbitrators - Independence and impartiality of arbitrators - Challenges and removal of arbitrators

Module III: Arbitration Proceedings

Commencement of Arbitration - Notice of arbitration and response - Initial procedural steps - Procedural Issues - Hearings and Post-Hearing Submissions - Oral arguments and examination of witnesses - Interim Measures: Types of interim measures (security for costs, preservation orders) - Jurisdiction to grant interim measures

Module IV: Arbitral Awards

Types of Awards - Final and partial awards - Consent awards and default awards - Form and Content of Awards - Essential elements of a valid award - Correction and Interpretation of Awards: Mechanisms for correction and interpretation - Additional awards - Enforcement and Setting Aside of Awards - Recognition and enforcement under the New York Convention - Grounds for setting

aside an award (domestic and international context) - Role of national courts in enforcement and annulment

Module V: Contemporary Issues and Future Directions in International Commercial Arbitration

Investment Arbitration -Overview of investor-state dispute settlement (ISDS) - Key instruments (ICSID Convention, BITs, Energy Charter Treaty) - Recent developments and criticisms - Third-Party Funding- Role and regulation of third-party funding in arbitration - Use of technology in arbitration proceedings (virtual hearings, e-discovery) - Impact of technology on efficiency and accessibility - Reform and Future Trends

VII. COURSE VIVA VOCE

The course viva- voce shall be conducted by a panel of three members including one external expert. Students should bring record of practical work and internship for Viva- Voce.

VIII. COURSE INTERNSHIP

Every student registered for the 5-year integrated LLB course shall complete a minimum of 20 weeks of internship during the course. The Department Council (DC) shall announce the period of internships for the academic year. The student shall comply with The Internship Rules, 2024 approved by SLS, CUSAT in compliance with the Bar Council of India (BCI) Rules of Legal Education, 2008. Students shall submit report and diary of internship on completion of each internship. Internship will be evaluated on a yearly basis by the faculty coordinators. Credits for internship will be awarded in the final semester based on consolidated marks of internship work done during the course.
